Schedule your hunt with us and prepare to experience the best in upland game bird hunting! Quite simply, we offer a good ole', top of the line wild bird hunt (deer, dove, and turkey hunts available as well). We are an upland game bird technology and habitat development company. Because of our years of developing our habitat and restoration technologies, our hunts are truly some of the best wild upland bird hunts you can find in the country for both pheasant and quail! Our hunts take place on our 12,000 acre research properties located in Greensburg, Kansas. Come and join us for this one-of-a kind hunting experience!

Imagine experiencing hundreds of pheasants exploding out of a single field, twenty plus covey days, 170+ class white tail bucks, flocks of Rio Grande turkeys, or thousands of doves coming into a watering hole. Your hunting dreams can become a reality at Upland Inn Hunts. Combining our restoration technologies with native grass CRP, pivot irrigated corn and beans, hedge rows, sand hill plum pastures, food plots, and habitat management (controlled burns, forb & legume inter-seeding, strip disking, plum thickets, etc.) we provide the needed resources to make wildlife flourish. Your friends, family, or customers will have memories that will last a lifetime. The following pages will give you an idea of what you can experience on your hunting trip. We strive to exceed your expectations and provide great Kansas hospitality! Call us to schedule your hunt or to find out additional information, or visit our website.

World Class Wild Pheasant Hunts!

Upland Inn Hunts prides itself in providing some of the best wild pheasant hunting in the world. Our 12,000 acres of intensely managed habitat provides everything a pheasant needs to thrive. With 6,000 acres of CRP native grass in 50 different fields, we utilize controlled burns, strip disking, inter-seeding, and food plots to provide everything a pheasant needs from nesting to brood rearing to over winter survival. With pivot irrigated corn, beans, milo, and wheat surrounding our CRP fields, a diversity of habitat lets our game birds thrive. With an abundance of acreage most of our fields only get hunted 6 to 8 times per season, providing some incredible late season pheasant hunts. Come experience the very best in wild pheasant hunting!
